

# CARING GENE® ACADEMY

## Learning Management Program

IHA's Caring Gene® Academy is available to healthcare organizations to provide online training to all of their employees and help shift to a virtual learning strategy. Through our partnership with HealthStream IHA is able to provide HealthStream's Learning Management System as well as custom, curated content bundles that you can begin taking advantage of today at a low cost for your organization.

### Benefits Include:

- Discounted pricing from HealthStream.
- IHA's administrative and support services.
- LMS platform that incorporates authoring abilities to create your own content.
- Value Based Payment (VBP) program assessments and course tracks for RN, CNA, HHA and PCA.
- Clinical CE library with over 1,800 titles to support organizational goals and promote clinical excellence.
- Dashboards that empower managers to optimize employee engagement and reduce turnover.
- Networking community to support the advancement of your learning strategy with a self-service administrator training center.
- Automatic tracking of state and federal training regulations for HHAs, nursing assistants, PCAs and hospice aides to ensure compliance and increase productivity.
- Video uploading capabilities and secure storage for custom content

### Why Should My Organization Join Caring Gene® Academy?

The Caring Gene® Academy is the continuation of the Iroquois Healthcare Association Workforce Investment Organization (IHA WIO) program that was created 4 years ago to support healthcare organizations in providing training and development to their employees. Many organizations have used the program to shift towards a virtual learning strategy which became a necessity during the pandemic. By joining the Caring Gene® Academy your organization will be able to continue providing training and development at a low cost.
